PROXY NETWORKS CONNECTION WINDOW BUTTONS & FUNCTIONS: CLICKONCE & HTML5

When using PROXY Pro on PC, the ClickOnce Master will provide the full experience. The ClickOnce Master is available on IE, Edge (with ClickOnce plugin) and Chrome (with ClickOnce plugin). The following is a listing of each of the connection controls along with a description of their function.

(A) Full Screen Mode		Click to view the Host's desktop machine in full-screen mode
(B) Fit To Window Mode		Click to view the Host's machine's desktop within the window size
(C) Fit One-to-One		View the Host screen at a 1:1 resolution mapping
(D) Monitor Select		Click to view primary, secondary or all monitors
(E) Next Monitor		Click to cycle through to the next monitor
(F) Take Input Control		Click to take control of the Host machine's keyboard and mouse
(G) Send Ctrl+Alt+Del		Click to send the Control + Alt + Delete keystroke combination
(H) Send Keystroke		Sends one of the below keystroke(s) to remote desktop
	Ctrl+Alt+Del	Click to send the Control + Alt + Delete keystroke combination
	Windows+L	Lock remote Host desktop
	PrintScreen	Capture snapshot of entire desktop and copy to clipboard
	Alt+PrntScrn	Capture snapshot of active window and copy to clipboard
	F11	Toggle between normal and full screen modes
(I) Toggle Visual Effects		Toggle visual effects on/off (e.g. Host wallpaper).
(J) Disable Host's KB/Mouse		Toggle the Host computer's keyboard and mouse on or off
(K) Auto-share clipboard		While enabled, copy and paste clipboard content freely back and forth
(L) Get Clipboard from Host		If auto-share clipboard is off, click to get clipboard content from the Host
(M) Send Clipboard to Host		If auto-share clipboard is off, click to send clipboard content to the Host
(N) Chat		Open a chat window to communicate via text with the end user
(O) Copy Graphics		Select an area on the Host's screen to be pasted into mspaint or Word
(P) Close		Closes the Remote Desktop Window and terminates the connection

CONNECTING WITH HTML5 MASTER: BUTTONS & FUNCTIONALITY DEFINED
